The First International Workshop on Enterprise Cloud Computing - Strategies and Solutions
ECCSS 2011
March 20-25, 2011 - St. Maarten, The Netherlands Antilles
http://www.iaria.org/conferences2011/ECCSS.html

IARIA

www.iaria.org

Important deadlines:

Submission (full paper)	November 5, 2010
Notification	December 10, 2010
Registration	January 10, 2011
Camera ready	January 15, 2011

Tracks:

- Architectures for enterprise clouds
- Principles, concepts and methodologies of enterprise cloud computing
- Tools, technologies, methodologies and frameworks for enterprise cloud computing
- Enterprise IS architectures such as application, information and technology architectures
- Synergies between SOA, Grid Computing and Cloud Infrastructures
- Quality of Service (QoS) models
- 'Elastic' and on-demand allocation and management of resources to meet business needs
- Benefits, issues and limitations of enterprise clouds
- Security, data integrity, legal and governance issues for enterprise clouds
- Management, monitoring an governance issues
- Portability of architectures, applications and data between cloud providers
- Reliability and maintenance of cloud-based business architectures
- Architectures for Software as a Service, Platform as a Service and Infrastructure as a Service
- Network architecture using Storage Clouds
- Experience reports with designing, building and using Cloud infrastructure
- Novel application architectures, best practices, case studies and surveys
