The Second Workshop on Holistic Human Factors for Adaptive Cooperative Human-Machine Systems
HOLIDES 2016
March 20 - 24, 2016 - St. Julians, Malta
http://www.iaria.org/conferences16/HOLIDES.html

Important deadlines:

Submission (full paper)	November 3, 2015
Notification	December 27, 2015
Registration	January 15, 2016
Camera ready	February 10, 2016

Topics:

- Adaptive and cooperative systems
- Adaptation strategies for global/local human machine-systems
- Real-time predictive human models
- Model-based methodologies
- Holistic formal (human & machine) modeling and accelerated analysis
- Automated reconfiguration
- New empirical task, exploration and validation analyses
- Formalized synergetic empirical methodologies
- Human factors along the whole engineering life-cycle
- Integration of all techniques & tools
- Human factors reference technology platforms
- Usability and safety for human operators
