Special track

DAILYHEALTH: Health Technology in the Patient's Everyday Contexts

Chairs and Coordinators:
Prof. Dr. Britt Östlund, Royal Institute of Technology (KTH), Sweden
britt.ostlund@sth.kth.se

Senior Lecturer, RN, MME, PhD. Janet Mattsson, Red Cross University College, Department of Health and Technology Development, Sweden
Janet.Mattsson@rkh.se

along with
eTELEMED 2017, March 19 - 23, 2017 - Nice, France
The Ninth International Conference on eHealth, Telemedicine, and Social Medicine
http://www.iaria.org/conferences2017/eTELEMED17.html

While traditional medical engineering focus on usability of single artifacts most often confined to individual physiological needs and hospital environments, implementation of eHealth systems and telemedicine applications depends on patient's everyday context with its routines, social networks and organization. For the individual citizen this development is experienced in different ways, from being wired into existence to increased freedom and accessibility to health care services. Driven by a firm believe that implementation of technological innovations in people´s everyday life will be able to enhance health there is a need for knowledge of what makes health care technologies work or not work in an everyday context, increased understanding of domestication of technologies and methods to assess health technologies in a daily context.

Subtopics

- What concepts are useful to understand what makes people´s active or passive users or resisters of using health technologies in everyday life?
- What affects implementation of health technologies outside environments controlled by health care professionals? What factors or strategies can be expected to improve implementation?
- How to meet demographic challenges when developing health technologies? How to turn experiences of old people into innovations?

Important Datelines
- Inform the Chair: As soon as you decided to contribute
- Submission: ~~January 15~~ February 10
- Notification with comments for camera-ready: ~~February 5~~ February 20
- Registration: ~~February 20~~ March 1
- Camera ready: ~~February 25~~ March 1

Contribution Types

- Regular papers [in the proceedings, digital library]
- Short papers (work in progress) [in the proceedings, digital library]
- Posters: two pages [in the proceedings, digital library]
- Posters: slide only [slide-deck posted on www.iaria.org]
- Presentations: slide only [slide-deck posted on www.iaria.org]
- Demos: two pages [posted on www.iaria.org]

Paper Format
- See: http://www.iaria.org/format.html
- Before submission, please check and comply with the editorial rules: http://www.iaria.org/editorialrules.html

Publications
- Extended versions of selected papers will be published in IARIA Journals: http://www.iariajournals.org
- Print proceedings will be available via Curran Associates, Inc.: http://www.proceedings.com/9769.html
- Articles will be archived in the free access ThinkMind Digital Library: http://www.thinkmind.org

Paper Submission
https://www.iariasubmit.org/conferences/submit/newcontribution.php?event=eTELEMED+2017+Special
Please select Track Preference as **DAILYHEALTH**

Registration
- Each accepted paper needs at least one full registration, before the camera-ready manuscript can be included in the proceedings.
- Registration fees are available at http://www.iaria.org/registration.html
